

Breakdown of data from MA survey on proposal to reduce backlog

In order to inform the Magistrates Association (MA) position on a number of proposals being considered to reduce the existing backlog of cases, we carried out a survey with sitting members. A link to an online survey was sent out on 17 June to all sitting members of the MA who have not opted out of receiving such emails. The survey was closed after two weeks. We received 1,740 responses. The summary of which can be found here. A more detailed breakdown of the results by jurisdiction is set out below.

All adult magistrates: **1689 respondents overall**

All youth magistrates: **330 respondents overall**

All family magistrates: **495 respondents overall**

All family only magistrates: **45 respondents overall**
